Fig. 13

A perspective drawing of a mechanical assembly, possibly a book binding or a small box. The drawing shows several parallel horizontal bars (labeled 10, 12, 14, 16) connected by vertical supports (labeled 18, 20, 22). A central component (labeled 24) is shown in cross-section, revealing internal parts (labeled 26, 28, 30, 32). Dimensions are indicated: 16" for the width of the base, 32" for the length of the central section, and 16" for the height of the side panels. The letters "D" and "E" are used to label different sections of the assembly.
